### No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of temperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.  
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

## MISCELLANEOUS.

Four murderers are awaiting trial at Bozeman, Montana.

Crops throughout Utah Territory are looking very promising.

A falling bar of 1 on killed George Elliot on Union Island, San Joaquin county, Cal.

Eliza Equard, a French seamstress, died suddenly in San Francisco Monday.

George H. Greer committed suicide in San Francisco Sunday night with chloral hydrate.

Custer county, Montana, boasts of \$13,000 in the County Treasury, while the outstanding debts of the county amount to \$200,000.

An association of capitalists have organized at Shasta, Cal., to locate extensive timber claims in the mountains north of that town.

The woolen mills at Santa Rosa are rapidly nearing completion.

The machinery is now being put in place, and the mills will be started up in a few weeks.

Apricot trees are in bloom in portions of Salt Lake City, while the peach trees look dried and dead. It is very doubtful if they will have any peaches there this season.

Moses Atkinson, while hunting near Green River, W. T., on Tuesday last accidentally shot and killed himself. His faithful dog watched the body 48 hours, until it was found.

The Regent mine, at Silver City, is producing some very fine ore, mainly goldbearing. It is reported that sinking was resumed this week.

The C. P. Railroad Company has issued an order requiring all persons crossing on the Solano between Benicia and Port Costa to purchase tickets at a cost of 15 cents.

The body of McIntire, one of the victims of the double murder at Lexington, Santa Clara county, is to be exhumed for traces of bullet-holes, with a view of securing additional evidence against the three murderers.

The Papago Indians in the neighborhood of Tucson, A. T., announced a war-dance recently, to take place over a three-months old scalp. The pow-wow took place on the night of the 16th instant, but was a failure, owing to the absence of the scalp.

Decline of Man.

Impotency of mind, limb or vital function, nervous weakness, sexual debility, etc., cured by World's Dispensary Medical Association, Buffalo, New York. Address with two stamps for pamphlet.

A permanent restoration of exhausted and worn-out functions follows the use of Brown's Iron Bitters.

For dressing the hair, and beautifying it when gray, nothing is so satisfactory as Parker's Hair Balsam.

### NO USE FOR THEM.

Concerning Certain Beliefs of the Past—Dogs That Have Their Day.

George Stephenson's "Rocket" and the magnificent locomotives of today are built upon the same general principle, yet the machine with which the great engineer astonished his day is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes or the utter failures of the old plaster.

The old plaster was slow in its action; the Capcine is quick and sure.

The old plaster lacked the power to do more than to impart slight, temporary relief in cases of easy treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plaster depended for any good results they might attain upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plaster, like Stephenson's discarded engine, are switched off the track, while the Benson's goes on its way winning golden opinions from all sorts of people.

Yet in this very fact lies the leading danger to the people who buy and use this reliable and scientific article. "Hypocri- cy is the tribute vice pays to virtue." Im- itation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of imitations. The genuine have the word CAPCINE cut in the center. Price 25 cents.

## RURAL SANITATION.

A mountain town ought to be as healthy as any place in the world if ordinary sanitary precautions are observed; but it is a singular fact that epidemics of typhoid fever, small-pox, diphtheria and scarlet fever have often been proportionately as fatal in these places as in any other in the country, says the *Alta*. It is probably to be accounted for on the supposition that, trusting too much to the natural salubrity of the mountain air, the people of these towns neglect necessary precautions that would not be overlooked elsewhere. The Health Officer of Nevada City, where a light epidemic of small-pox recently prevailed, publishes a report in which he speaks with freedom of decayed sewers and local accumulations of filth. It appears that all the sewers in Nevada City were made of wood, and now being rotten are worse than useless. The Health Officer very properly says these sewers should be replaced with pipe. Wooden sewers are as much out of date as a farmer would be who insisted on ploughing with a crooked stick. It is one of the suppositions of the age that sewers must be very large, even in small cities or villages. Where a pipe of a few inches in diameter would carry all the sewage, it is thought needful to build a huge covered ditch that would suffice for a main sewer in a populous city. Even in San Francisco the sewers are generally several times too large, and as a consequence the flow is not sufficient to keep them clean. They choke up and the effluvia rises through the openings in the street, and breeds a miasma both noisome and poisonous. In the smaller cities the sewer boxes are almost universally built of redwood, which is not indestructible, as falsely supposed, and in a few years it decays and permits the dirt to fall in, beside adding to the volume of gases from decaying vegetable matter. Concrete or glazed earthen pipes are the kind of sewer needed for smaller cities and towns, and though it is always a difficult matter at first to persuade the authorities that a small "cat-hole," as they derisively term the pipes, will convey all the sewage of their enterprising town, a single practical demonstration generally settles it and makes apparent the hygienic advantages of small, inexpensive pipe sewers, which will not decay or fill up. The new drainage system of the city of Memphis, which has given such good satisfaction, is an example in point.

## EDITORIAL NOTES.

Reports from the southern country state that the dreaded black leg is causing the stock men serious losses. Near Independence, Cal., about 20 head of cattle have died of the disease. It attacks only those younger than three years. There is considerable doubt about the propriety of eating beef at all during the prevalence of the disorder.

From present indications the prospect for a large wheat crop in Europe is less than in the United States. Great Britain's acreage is estimated to be 15 per cent. and in France 10 per cent. smaller than last year. The area sown in Russia and Austria is also a decreased one, while the outlook for a good yield is considered poor almost everywhere.

A falling off of \$4,000,000 a year in the sale of stamps is looked for by the Postoffice Department under the new law, but the Postmaster-General hopes that the increased use of the mails through two-cent postage will make up the deficiency.

Rhode Island is a little State, but its Legislature is a business body. It met and adjourned within three weeks, after transacting more business than any previous Legislature for years. Nevada might profit by the example.

## EASTERN DISPATCHES

[ASSOCIATED PRESS.]

### A Devastating Cyclone in the Southern States.

NEW ORLEANS, April 25. A cyclone passed through Monroe county Sunday, killing some persons and wounding many colored citizens seriously, and carrying away houses at Frier's bridge and everything else in the way. The suburbs of Aberdeen, containing 25 or 30 families, was absolutely swept from the face of the earth. Seven persons were killed outright and two others have since died from their wounds. Twenty-five are now under treatment. Many are in a serious condition. The county jail is converted into a hospital. The course of the cyclone was southwest, and passed through the county, wrecking everything in its path.

ATLANTA, Ga., April 25. Great damage was done by a storm in Clay county. A negro was killed and several persons fatally injured.

CHARLESTON, S. C. April 25. The cyclone in Barwell county, yesterday, cut a hole three-quarters of a mile wide through Saltketchie swamp, as if the timber had been cut away for a railroad. Many houses were swept away.

NEW ORLEANS, April 25. A special from West Point says: Two cyclones passed over Clay county Sunday; one about 12 o'clock over the western part of the county, the other about 1 o'clock over the central and southern parts. Both were terrific in the extreme, leveling houses, fences and trees to the ground and spreading death and destruction in their paths. Near Hohenlinden 30 persons are reported killed, and near Pine Bluff 19 are reported killed. A number are killed in different parts of the county, but how many is not known. At West Point the Court-house, law buildings, Central Hotel and several stores unroofed. A deed was found that had been blown 50 miles. The afflicted and distressed are being provided for by the more fortunate. No estimate can as yet be put upon the property destroyed. It was intended to start a mill at Wesson to day, but there was so much sorrow in town and so much misery that the hands could not be got together. The town is quiet and a Sabbath calm prevails.

WESSON, Miss., April 24. The course of the cyclone was 17 miles northeast from Beauregard and 16 miles from Hazelhurst. The first town reached by the cyclone Sunday was Georgetown, a small village. Many residents of that town and vicinity were assembled at the Methodist church, the quarterly circuit being in session. The cyclone struck the church and one of the side walls fell in upon the congregation. The minister, Rev. H. B. Lewis, had his skull fractured. Mr. Savage, who rushed out, was instantly killed by falling limbs breaking his neck. A negro church near by was also visited by the destroying wind and succumbed. Three worshippers were killed outright and eight or 10 injured. Residences and stores were leveled to the ground. John W. Crawford, wife, daughter, grandchild and servant were instantly killed. Mrs. Crawford was blown 3,000 yards and the entire family so crushed and mutilated as to be hardly recognizable, presenting a horrible appearance. Mrs. Fowles was carried 150 yards and thrown into a tree, and from thence carried by the wind into another tree. All stock in the path of the cyclone was killed, being crushed to death by flying timber.

### A Defaulting Official Sent to State Prison.

SAN ANTONIO, Texas, April 24. Ex-United States Marshal Russell, in charge of three officers, has started for the Chester, Ill., penitentiary. Russell has been confined in jail since the 9th inst., occupying an up-stairs private room, where he has been visited daily by a large number of gentlemen of all political hues. His wife was with him almost constantly. A petition to President Arthur is signed extensively throughout the State. The official order from Washington to Marshal Gosling to convey Russell to the penitentiary at once elicited from Russell the expression that he was hardly prepared for it and up to that moment he had indulged a hope that the Department of Justice would grant him a new trial.

### An Extensive Coal Miners' Strike Threatened.

PITTSBURGH, Pa., April 25. A convention of railroad coal miners decided to strike May 1st against a reduction of half a cent. About two-thirds of the pits were represented, and a committee appointed to visit mines where the men were working for three cents and endeavor to have them join the strike. If they succeed work will be suspended on all the pits and between 7,000 and 8,000 men be out of employment.

### General Crook on the Move—The Mexican Boom.

DENVER, Col., April 25. An El Paso, Texas, special says: The Times has information from Crook's command. All is going forward satisfactorily. The rangers are breaking up and returning to Tombstone. The

tone of the Arizona press has entirely changed since Crook's recent movement. The line which Crook will follow involves a march of nearly 500 miles. The point in Mexico where it is stated by Indian scouts and Mexican officers the chief hostile stronghold is located is at least 500 miles from Guadalupe Canyon.

Parties representing a Boston syndicate are in town on route to Chihuahua, for the purpose of examining a tract of 1,000,000 acres of land. The Board of Trade of this place are arranging for an excursion of Mexican merchants from Chihuahua. There will be 250 in the party.

The mill machinery passing through here to Mexico is simply enormous in quantity.

### An Atrocious Affair.

GALVESTON, Texas, April 25. The News has a Houston special of an atrocious crime committed nine miles from here at the Beck House. A negro boy named Adams, aged 12, under the impression that the boys of the neighborhood were going to flog him, while playing with a boy named Nelson, aged 11, whom he suspected as one of the parties, tied a rope around Nelson's waist, and mounting a horse, tied the other end to the pump-hill, and rode rapidly off, dragging Nelson through the prairie until he was dead.

### Investigating Indian Affairs.

ST. LOUIS, April 25. A special from Albuquerque, N. M., says information is received there that on the 19th instant Geronimo, one of the chiefs of Juh's Apaches, captured Professor A. F. Bandler of the American Archaeological Institute, S. F. Builder of Tucson and a Mexican near San Cristabel, Sonora. The Apaches took the prisoners into the mountains, and it is nearly certain that they have been murdered. Prof. Bandler has been investigating Indian antiquities in New Mexico and Arizona.

### Too Much Fire Water.

DALLAS, April 25. Saturday, the 14th instant, four Warm Spring Indians came here, bought whisky, and had a boisterous spree. When they got home they quarrelled with the Secoma, the medicine man, who made threats against them. The next morning Secoma was found dead, with blood running from his mouth and eyes and a belt twisted around his neck. An Indian named Adams and two others were arrested and brought here. Adams was held to answer.

### An Arkansas Murder.

LITTLE ROCK, April 25. Near Cedar Glades, Yell county, Saturday, William Potter was murdered while working in a field by Riley Bioll, Riley Blocker and Jack Daniels, in whose possession some of Potter's hogs were found. They were taking him to the woods to shoot him when he hallooed to his wife and then they shot him and fled to the mountains and joined several other desperadoes. The Sheriff and posse are searching for them and a bloody encounter is expected.

### The Great Irish Land League Convention.

PHILADELPHIA, April 24. Five hundred delegates to the great Irish Land League Convention have arrived. The headquarters of the Executive Council is thronged day and night. President Mooney says there is not the slightest indication of disturbance at the convention. He and his friends have carefully canvassed the situation. O'Donovan Rossa will attend as reporter for his paper.

### A Texas Tragedy.

LAMPASAS, April 25. Dr. A. C. Rich was murdered last night by parties unknown. He and Mrs. Rich were asleep, when the door was unfastened, and parties entered the room and shot Rich through the head. They jerked him out of bed and fired two more shots killing him instantly. Rich came from Georgia several years ago and was married only two years.

### The Wisconsin Cigar-Makers.

MILWAUKEE, April 25. Union shops have resolved to grant the cigar-makers an advance of one dollar after May 1st and there will be no strike. The shops, however, embrace all the small factories, to the exclusion of large concerns, and trouble is feared in such places.

### Fatal Shooting Affray.

CLEVELAND, April 25. An Oakland special says that during a quarrel to-day L. Ward shot and killed Harrison, and it is supposed mortally wounded his brother, George Harrison. Ward was arrested. Lynching is threatened.

### Good Evidence Found.

LONDON, April 25. The Times says it is understood the evidence against Peter Tyrer (No. 1), from independent witnesses, as well as from informers, is such as to justify decisive action by the Government in asking his extradition.

### Fatal Stabbing.

CHICAGO, April 25. Thomas Shine, a painter, while leaving a disreputable house this morning became embroiled with three strangers, one of whom killed him by stabbing him in the neck.

## WESTERN TELEGRAMS.

[ASSOCIATED PRESS.]

### The Verdict—Unsafe Condition of Buildings in Sacramento.

SACRAMENTO, April 25. The Coroner's Jury last night concluded the examination into the cause of the terrible disaster last Friday morning. The jury's verdict was that death was caused by the falling of the wall of Grand Army Hall building. The exact cause of the building falling is unknown, but the insecurity of the building was known by the erector. The jury are of the opinion that many unsafe buildings are in the city.

### A Dangerous Beat.

PORTLAND, O., April 25. Saturday last a Chinaman having charge of a gang of men employed on the extension of the O. & C. R. R., drew \$1,000 in greenbacks to pay off his men, and sat down on a keg of giant powder to wait for them. The keg exploded and he was blown to pieces. Only a few fragments of his clothing and greenbacks could be found.

### Postponed.

SAN FRANCISCO, April 25. The cases against Gray and O'Brien are postponed till next week.

## FOREIGN TELEGRAPH.

[ASSOCIATED PRESS.]

### The Park Assassins.

DUBLIN, April 25. The trial of Timothy Kelly, charged with participating in the Phoenix Park murders, was continued this morning. The Judge spoke strongly against the prisoner's claim of alibi. The jury after being out a short time returned and announced that they were unable to agree on a verdict. The trial of Michael Fagan, charged with the murder of Burke, then begun.

### Too Much Pork for Him.

BERLIN, April 25. The *National Zeitung* says the position of Sargent, United States Minister, is considered to have been shaken in consequence of his letter to the American Secretary of State on the subject of the importation of pork into Germany.

## TELEGRAPHIC BRIEVITIES.

—Helen Marcovitch, who attempted to shoot the King of Milan has been sentenced to death.

—Increased precautions are being taken because of letters threatening to blow up public buildings in Dublin.

—Reports from Texas say the striking cowboys are out of money and willing to return to work at former wages.

—The general passenger agents of trunk lines to-day discussed the readjustment of different rates, and a resolution looking to a general reduction in passage from the West met with strong opposition.

### Eleven Men Arrested for Murder.

GRAND FORKS, D. T., April 24. Eleven arrests were made to-day of parties suspected of being connected with the murder of the Ward Bros. It is said the Wards built a shanty on the claim of a man named Bell, who was residing on the claim; that Bell on coming home Sunday was driven off by the Ward brothers. He then rallied his friends and ordered the Wards to leave, when the Wards fired upon them and the fusillade became general, and the Ward boys were both shot dead. A man who was with the Wards made his escape, and has identified the men who are now under arrest.

### WASHOE MILL & LUMBER COMPANY

(SUCCESSORS TO C. A. BRAGO & CO.)

## JOTTINGS.

There are many strangers in town. Strawberries are selling for 30 cents per box. Bridge material for the C. & C. is going south. Indians are going out east on some sort of a tribal rodeo. Snow is ten inches deep in Fish Springs Valley, it is reported. Louis Dean will ship about 100 head of cattle below to-night. Sheep shears are now in demand. They get eight cents a head. The passenger train from the East was five hours late last night. Rubber balls at Nasby's. Thermometer at 7, 9, 11, 1, 3—42, 52, 54, 55, 57. The up-country stages were well filled this morning with passengers and freight. J. Bowen of Verdi has a notice in another column interesting to merchants and others. Cattle men say beef is still a valuable commodity, and is not very likely to be cheaper again. A Chinaman was buried this afternoon from Wing Lee's wash-house. His name was Chung Lee, and he died of consumption. J. L. Woods and brother started north yesterday with about 100 head of horses purchased of A. J. Clarke. They are looking for pasture. There were 215 emigrants on the west bound train last night. Most of them were Canadians bound for Washington Territory and Oregon. The stockholders of the North Truckee Drain Ditch Company can get their stock certificates by calling on W. P. Van Meter, Secretary. Flirting in the park by Miss Leona Ransom and Finley Cook at the Baptist entertainment last evening was well received. It was the hit of the night. R. P. M. Kelly has just sold 200 shade and ornamental trees to Amity Lodge No. 8, K. of P. The knights are fixing up their lot in the cemetery. Lee has bought three acres of ground adjoining the stockyards on the railroad and will build a six foot stone fence around it. The contract for building it has been let to Boyce. John Belz and his assistants are artists in their line and can shave a razor with much skill. One feels 10 years younger after occupying a chair in that shop for 20 minutes. Call in, next door west of the Arcade. The Truckee Lumber Company are getting in their spring drive of logs, and the holsting of the gates of their dams above Truckee sends the river up 12 or 15 inches higher every noon time than at any other hour of the day. J. K. Everett's grocery business is growing fast and his trade is expanding in a manner that must be gratifying to him. His delivery wagon is always busily engaged distributing goods to customers in all parts of town, while the number of patrons he has among the farming community shows he has a large outside trade. Good beer is a generous beverage for man or woman, being both strengthening and nourishing when taken in moderate quantities. Geo. Becker's beer is a wholesome drink, and people speak highly of it wherever it has been tried. Orders come in daily from all parts of the State, proving that the Pacific brewery has a widespread reputation. The first piano was made at Padua, in Italy in 1711, by Cristofori. The first one seen in England was made by Father Wood, a monk, and very few were made there until 1760. Abrams Bros. of the White House are having fine clothing made all the time for their customers who never get tired of looking at themselves in a mirror. Chielovitch & Co. of the Wine House still maintain their reputation for enterprise and fair dealing, and as a consequence are doing a thriving business in both departments of their establishment, which is one of the largest of its kind on the coast. They carry a large stock of wines and liquors and all goods are guaranteed to be strictly as represented. N. & O. TRAINS. The Question of Leasing the Road Considered by the Board. The Board of Directors of the N. & O. railroad had a meeting this afternoon to consider the question of leasing the road and allowing trains to be run over it. There has been some talk for the last month on the subject. Mr. Schoelling wanted to get things moving so as to haul lumber from the mill above Long valley, but he has not thought of running the road himself. Judge Webster was willing to lease it and made a proposition to that effect. The northern country will be canvassed and efforts made to get passengers, mail and freight to haul. It will cost about \$30 a day to run, barring accidents and wear and tear. General Clarke, attorney for the bondholders, is willing for trains to go on and thinks it better than for the track to be idle. He has telegraphed Moran. The road was leased for one year to Judge Webster, who is to keep up repairs. He will get the use of the rolling stock from those who have got it. It is not decided when trains will be put on.

## THE NEW NICKEL.

A Coin that is Not All It Seems to Be.

The new nickel five-cent piece has arrived at Reno. When neatly plated it looks so much like a five-dollar piece that cunning immigrants from the East have already dropped on the new dodge and palm the deceptive pieces off upon confiding bar-keepers and others along the road. It is known that the mint laws require that the value of the coin shall be stated on its face, but this little requirement was overlooked by the designer of the new coin, who simply had engraved the numeral V on the die. A newspaper man discovered this violation of the statute, and called the attention of the Treasury Department to it, when an order was issued to have the word cents added. The new coin with this amendment is now being stricken off. It has recently come to notice that the three-cent nickel coin authorized 18 years ago does not conform to the law of February, 1873, because it simply has the numeral III on its face. These coins are identical in size to the quarter eagle, and only a trifle smaller than the three-dollar piece. If these latter coins were as common as the half-eagles a little gilding would enable unscrupulous parties to work them off for \$3. It is claimed that there is no law which forbids the gilding of nickel coins. The new five-cent nickel gilded with the same alloy used in the making of gold coins may be easily passed as \$5 among persons not accustomed to handling metallic money. With the exception that the edge is not milled, when lying with the head up it can scarcely be distinguished from the five-dollar coin.

## TO-MORROW NIGHT.

Do Not Miss Seeing "Friend and Foe" as Played by the Scanlan Company.

This measly weather is calculated to make one feel "blue" and disgusted with himself and all mankind. It is anything but agreeable, and if it is possible to shake it off one should do it. William J. Scanlan will be here and present Bartley Campbell's comedy of "Friend and Foe," for the first time in Reno, tomorrow night. Let us all go and enjoy ourselves. The New York Dramatic News says of the play: William J. Scanlan is secure today in the position he attained in one bound, and has become recognized as a worthy member of that branch of the profession represented by such men as J. K. Emmet and Joe Murphy. Last night he received an ovation from an audience that left no seats unoccupied at the Windsor theatre, and there were more standing who could have filled the entire chairs. The seats are going rapidly and the house is sure to be crowded.

## IN THE FIRST DEGREE.

A Pardoned Nevada Convict is Found Guilty of Murder.

Stephen Richards, who shot and killed Thomas Nichols on the 11th of last March at Auburn, Cal., was found guilty Saturday of murder in the first degree. The night previous to the murder Richards had been gambling, and, according to his own story, had lost some \$12 or \$14. He became intoxicated and claimed to have been robbed in the game. Meeting Nichols in the doorway of the hotel he charged him with having been in the game and demanded the return of his money. Nichols, who had never seen Richards before, remonstrated with him, when the latter, without warning, drew a revolver and shot Nichols dead. The murderer has a bad record, having been sentenced to life imprisonment in Nevada for killing a man in Austin. He was pardoned out, however, for services rendered during the burning of the prison at Carson a few years ago.

## The Old Pioneer on Deck.

M. Nathan calls the public's attention to the large stock of men's and boys' clothing, gents' furnishing goods, hats, caps, boots and shoes, etc. Mr. Nathan has been here so long that he understands the requirements of the people of this section, and selects his stock accordingly. His last invoice are of the very latest styles and of the best material. Don't fail to give him a call before making your purchase.

## The Oldest Odd Fellow.

It was announced recently that Joshua B. McShane, who died at Quincy, Plumas county, was at the time of his death the oldest Odd Fellow on the coast, having been initiated in 1838 in Wisconsin. This, however, is a mistake. George Lord, residing in San Bernardino, was initiated in 1833 in Kentucky.

## To-Night's Entertainment.

The "Sugaring Off" at the pavilion last night was well attended, and will be continued this evening with plenty of maple sugar for all. The programme will be entirely new. Miss Epley, the new music teacher from Napa, will sing a solo, and a good time awaits all who attend.

## A New Development.

A development in the Frankie Scott mine at Prospect Mountain, Eureka county, is reported by the *Sentinel*. The ore assays between \$100 and \$125 per ton. It is quartz rock, carrying black metal, and in places showing thick horn silver.

## THE PASSOVER.

An Important Week for Orthodox Hebrew Citizens.

The Jewish Passover week began on Saturday evening at 6 o'clock. It is the most important week of the year for those who are of the Hebrew faith. Although there is no public recognition of the event in Reno, nevertheless many of the Jews here will recognize and follow some of the precepts laid down by the church. "The Passover is a celebration of the exodus of the Israelites from Egypt, i. e., on the 14th day of Nisan, the period of the first full moon in the Spring. The orthodox Jews eat only unleavened bread during the week. The Passover is generally regarded by Christian theologians as at once a sacrifice and a sacrament, and in the former character as an emblem of the sacrifice of Christ. The death of Christ at the very time of the Passover is regarded as corroborative of this view, which is indeed plainly adopted in certain passages of the New Testament. The Passover is regarded as typical of Christ in its connection with the deliverance of Israel from the bondage of Egypt, held to testify our salvation from the bondage of sin. The Passover meal as at present celebrated among the Jews has more the character of a hallowed family feast with reference, however, to the great national event."

## PLUMAS ITEMS.

News Culled from the Columns of Our Quincy Exchange.

The *National* of April 21st contained the following: Land titles are agitating the Indian valley farmers some lately. Potatoes can be bought in Indian valley at \$1 per hundred. The saloon men are growling at the license, and in some parts of the county they are talking of contesting it. W. D. Fletcher has issued a call for the meeting of the Directors of Agricultural District No. 11, to be held at Greenville on Saturday, May 26th. The call says that at that time bids will be received for locating the Fair for 1883. The Reno stage has commenced making regular Summer time and now runs through in a day. Stages arrive here at about 10 o'clock P. M., and leave again at 2 o'clock in the morning. The daily papers come one day sooner, and, altogether, the new deal is a decided improvement. The Genesee mine, owned by Dr. Quinn, has changed hands, the sale having been made this week. We did not learn the names of the purchasers nor the amount paid. About two weeks since a couple of gentlemen came to Quincy from Reno, and made a close search of the records and title of this mine, and then returned to Reno. They are, probably, the new owners.

## RATS.

All the Rats in Eureka County in One Hole.

A miner descended the main shaft of the Frankie Scott mine at Prospect Mountain the other day, where he found himself completely surrounded by myriads of rats. The animals were seized with terror at his appearance amongst them, and jumped about the sides of the shaft, and in wild confusion covered him at times from head to foot. The miners occupied an entire day in hauling up old bones, rats' nests and other debris that the rats had brought in from the tunnels and other places on the hill, which had been accumulated by them for the three years during which the shaft was abandoned. It is something singular, says the *Sentinel*, that there should be such a swarm of these large rats—regular old-time wharf rats—in a mine near by us when there is not a rat to be seen anywhere in the whole town of Eureka.

## Without Irrigation.

J. M. Ward has been trying a very interesting experiment with potatoes, and thinks it will be entirely successful. He worked off a little plot of ground on his ranch at Deep Hole, which he had spaded up very deep last Fall. Then he planted potatoes in it about a foot below the surface, so they wouldn't freeze. This Spring they are growing nicely, and he expects a big yield.

## Persistent Advertising.

A San Francisco advertiser writes as follows: SAN FRANCISCO, April 23, 1883. *Evening Gazette*:—I do not understand why my advertisement is put in some days and left out others. I want it in steady, as I have invariably found that the persistent advertiser is the one that wins in the end. Our bargain was that it should appear in every issue.

## I. O. O. F.

A general attendance of the members of the order is requested at the hall of Truckee Lodge tonight as special anniversary exercises will be had, also an official visit from Grand Officers, Members of Reno Lodge requested to be present. J. F. SMITH, N. G.

## A Compensating Benefit.

California orchardists say the frost that killed the fruit last week brings some comfort to them. They say it will kill off the codlin moth, as without fruit its chances for propagation are slim.

## TEXAS CATTLE.

Changes in the Manner of Handling Large Herds.

The typical cow-boy is almost a thing of the past, not simply because the number of cattle has so decreased of late, but the manner of handling them has undergone a radical change. Time was when an owner of 1,500 or 2,000 head of cattle would find employment for 15 or 20 vaqueros; under the present system three men can now perform the functions for which five times that number were requisite a few years ago. It was formerly the custom upon Texas ranches to "loose-herd" the cattle during the day and to round them up on the "bed-ground" or pen them in corrals for the night. Now they have immense pastures, inclosed by many miles of barbed wire fencing, in which cattle roam at will by day or night. The pasture fences are examined and kept in repair by men detailed upon the ranches for that purpose. Ten years ago the cattle were driven north without regard to sex, age or condition. The result was that Texas was almost drained of breeding as well as of beef cattle. Now there is some discretion exercised, and it is the exception, not the rule, for cows and calves to be driven "up the trail" or to the shipping centers.

## PERSONALS.

U. S. Marshal Corbett is in town to-day. James McNamara of Long Valley is in town. James D. Torreyson, Carson, was here last night. Hon. H. G. Parker came up from Oakland this morning. Jake Lewis and Nick Hammer-smith are in from Wadsworth. Gen. Pat Reddy, the Bodie lawyer, was a passenger south this morning. A. C. Bixby of Mendocino county, Cal., will go west to-night with a car-load of work-cattle. U. S. Marshal Corbett went up to Oneida, the terminus of the N. & O. road, yesterday, on official business. Trinity Church "Cottage Meeting" will be held at the residence of J. S. Shoemaker this evening at 7 o'clock. Harry Hamilton, one of the peculiar characters of Bodie, was in town last night and met many old acquaintances. Lieutenant Governor Laughton, our overworked State Librarian, was a passenger for San Francisco on last night's train. Wm. Prosser, from whom Prosser creek takes its name, is in town, from Rocklin, Cal., on business, looking hale and hearty. Wm. Buck and wife of Cedarville, having spent the winter in San Jose, returned from below this morning on their way home.

## TRUCKEE NEWS.

Special Election—Snow Storm—Death of Mrs. Elie Ellen. The special election held at Truckee yesterday, for the issuance of bonds to settle up Nevada county's outstanding indebtedness, 131 votes were polled, of that number 103 were in the affirmative and 28 in the negative. Not much interest was manifested. It snowed all day yesterday. Mrs. Elie Ellen died at 12 o'clock yesterday of dropsy. She had been sick for a long time, and a great sufferer. The funeral will take place to-morrow (Thursday). She will be missed at Truckee, where she has lived so long.

## Opening Letters by Mistake.

It may be of interest to persons who receive, by mistake or otherwise, letters not intended for them, to know that they should take a second thought before breaking them open, and read Section 1,224 of the penal laws of 1879, wherein it is prescribed that the penalty attached to the act of opening by any person of a letter received from a postoffice and not addressed to such a person, but intended for another, shall be a fine of not over \$500, or imprisonment at hard labor for not over one year, or both.

## A Busy Season Looked For.

The Central Pacific Railroad Company has issued a circular letter stating their inability to charter cars or run excursion trains during August next, as all passenger equipments will then be required for regular service. The companies state that it is quite possible that special rates from all California and Nevada stations will be made to enable those who so desire to visit San Francisco on the occasion of the Triennial Conclave of Knights Templar.

## Moving Wood.

W. P. Van Meter has rented his place at the mouth of Spanish Springs Valley to John Dixon, Sr., and has taken a contract with Jim. Black to haul 2400 cords of railroad wood for J. R. Stone at Pacific Shingle mills. They cannot get into the woods for a couple of weeks on account of snow.

## Hail and Wind.

During the whole of yesterday showers of hail occurred, with strong winds, between Reno and the northern terminus of the N. & O. road. Some of them were heavy squalls which neither men nor animals could face.

## "THE RENO GAZETTE."

What is Thought of It in the Northern Country.

The *Plumas National* makes the following discriminating comments: "This splendid little daily recently entered on a new volume. If Reno has anything to be proud of it is the *GAZETTE*. It is well printed and is the equal of many of the better class of daily papers in cities of 10 times the pretensions of Reno. The telegraphic columns are always filled with the latest news items, and the local department is worked up in a way that is not only readable, but valuable to the town. The *GAZETTE* is one of our favorite exchanges, and we hope it will live long and prosper."

## Pleanty of Work Soon.

There are two men in Truckee for every situation. In a few weeks there will be work for all.

## NEW TO-DAY.

OMAHA WEEKLY BEE

SPECIAL INDUCEMENTS.  
Since the distribution of premi-  
ums is over and our premium list  
closed until next year, we are yet  
anxious to increase the circulation  
of the WEEKLY BEE to such a num-  
ber as to greatly reduce the cost of  
the paper and to furnish it to our  
subscribers at a mere nominal  
price. In order to do so we offer the  
same for the balance of the year,  
until January 1, 1884, for ONE  
DOLLAR. This is the lowest price  
ever asked for a western journal of  
its size, and all should avail them-  
selves of this liberal offer.

MISCELLANEOUS.

DR. LIEBIG

Dispensary Cor. Geary  
and Mason Sts. San  
Francisco Cal.

THE COLLEGIATE IN-  
stitute for the cure of  
special diseases and  
called incurable chronic  
diseases. Dr. Liebig's  
German Invigorator will  
positively guarantee to  
cure nervous and physical  
debility, seminal weak-  
ness, loss of Manhood,  
Spermatorrhea, loss of  
Energy, Ringing and  
Disturbance in the Head,  
Menstrual Disorders,  
Feet, Prostatitis, and  
all the results of  
youthful imprudence and  
excesses of mature years.  
The Doctor, a regular  
college physician from  
Europe, will agree to re-  
fute one thousand dollars  
for a case the Invigorator  
will not cure under spe-  
cial treatment and advice.  
The reason so many can-  
not get cured of Weakness  
and the above diseases is  
owing to a complication  
called PROSTATITIS.

HEA, which requires special treat-  
ment.

Dr. Liebig's Invigorator No. 3 is the  
only positive cure for Prostatitis.

Price of either Invigorator, \$2 per bottle;  
six for \$10. Sent to any address on re-  
ceipt of price, or C. O. D. Responsible  
persons can pay when cured. Strictest  
Secrecy Maintained. Patients cured at  
home. Dr. Liebig's Dispensary has an  
Elegant Drug Store in its building.

Too frequent evacuations of the bladder  
and Ropy Sediment in urine are symp-  
toms of Secondary Seminal Weakness  
and Prostatitis. Complaints readily  
yield to the Dr. Liebig's Treatment.

Ordinary Cases - Any recent case of  
special or private diseases cured for \$10.  
Remedies sufficient to cure, sent free of  
charge. Persons ordering a free bottle  
will only have to pay expressage on de-  
livery.

Most Powerful Electric Belts Free to  
Patients. Consultations, Examination  
and advice free and private. Call or  
write.

DR. LIEBIG & CO., 401 Geary St.  
Prvt Entrance, 405 Mason St. S. F.

**DR. SPINNEY**  
NO. 11 KEARNEY STREET,  
San Francisco, Cal.

Treat all Chronic and Special Diseases

**YOUNG MEN**  
WHO MAY BE SUFFERING FROM  
the effects of youthful follies or im-  
discreetly, will do well to avail them-  
selves of this, the greatest boon ever laid  
at the altar of suffering humanity. DR.  
SPINNEY will guarantee to forfeit \$500  
for every case of Seminal weakness or  
private disease of any kind or character  
which he undertakes and fails to cure.

**MIDDLE-AGED MEN.**  
There are many at the age of thirty and  
sixty who are troubled with too frequent  
evacuations of the bladder, often accom-  
panied by a slight smarting or burning  
sensation and a weakening of the system  
in a manner the patient cannot account  
for. On examining the urinary deposits  
aropy sediment will often be found, and  
some small particles of albumen will ap-  
pear, or the color will be of a thin milky  
hue, again changing to a dark and torpid  
appearance. There are many men who  
die of this difficulty, ignorant of the cause,  
which is the second stage of seminal  
weakness. Dr. S. will guarantee a perfect  
cure in all such cases, and a healthy  
restoration of the genito-urinary organs.

Office Hours - 10 to 4 and 6 to 8. Sun-  
days from 10 to 11 A. M. Consultation  
Free. Thorough examination and advice  
\$5.

P. S. For private diseases of short  
standing a full course of medical treat-  
ment for a cure, with necessary instruc-  
tions, will be sent to any address on re-  
ceipt of Ten Dollars. Call or address  
DR. SPINNEY & CO.,  
No. 11 Kearney Street, San Francisco.
